

# Novo-Dry™ Desiccant Sheets

A Natural Way to Control Humidity

# Novo-Dry™ Desiccant Sheets

## CUSTOM CONVERTED AND PRINTED WITH YOUR LOGO IN SIZES TO SUIT SPECIFIC NEEDS

Novo-Dry™ is a new patented desiccant that delivers excellent performance in today's market. Standard desiccants are made from powders and pellets encased in packets. Novo-Dry's™ active ingredient is efficiently dispersed on a molecular level into recycled paperboard. The board is capable of absorbing it's weight in humidity. Unlike standard desiccant, Novo-Dry™ is 100% recyclable after use. It's a more natural option!

3"X3"

Small compartment  
consumer goods,  
foods, electronics,  
metal parts

8"X8"

Larger compartment  
consumer goods,  
equipment

40"X48"

Ideal for gaylords or  
pallets of perishable  
foods, construction  
materials

### PERFORMANCE FEATURES

- Made from recycled paper and may be recycled at curbside.
- Eliminates potential safety hazards, spills, and mess caused when conventional granular products are opened.
- Effective within a wide temperature range protecting perishable foods by controlling humidity and providing insulation.
- Controls humidity to prevent corrosion and mildew on products such as metal parts, furniture, electronics, leather goods and apparel.
- Complies with FDA regulations for direct food contact packaging; 21CFR 176.170 (conditions of use B,C,D,E,F,G,H), 21CFR 176.180, 21CFR 176.260 pulp from reclaimed fiber, 21CFR 109.30a (9) pertaining to PCB content of paper food packaging materials.
